

Keep it Simple.™

ENTERTAINMENT COMPLEXES

Theater owners and entertainment complex developers navigate within an exceptionally fast-changing industry and Element ICF is the ideal entertainment complex solution for today and tomorrow. It's a fast and inexpensive build with a great result – a tough and durable building that's as sound-proof, space-efficient and energy-efficient as they come.

HIGH PERFORMANCE ADVANTAGES

- Element ICF, with “6 steps in 1”, is simply faster and less expensive than you expect high quality concrete construction to be. And it's simpler too—with Element, a single crew can build the entire superstructure, largely unimpeded by cold winter conditions.
- Superior construction speed. Element ICF, with “6 construction steps in 1”, is typically faster than regular CMU construction. This means a shorter financing period and incoming revenues sooner than later.
- Sound-Proof. Sound transmission class ratings of 56 and higher for interior and exterior walls are easily achieved with typical Logix wall assemblies using an 8” concrete core. This is a much simpler than the common alternatives, such as double insulated 2 x 6 or 2 x 8 walls with 3”– 5” air gaps between walls.
- Using Element ICF to build the interior demising and shear walls creates a stronger structure and this in turn allows for a streamlined structural design and a lighter roof structure.
- Element ICF accommodates a wide variety of facades, which allows you to design the appearance of your building in alignment with your brand and image.

SIX CONSTRUCTION STEPS IN ONE EFFICIENT PACKAGE

- | | |
|-----------------------|------------------|
| 1 CONCRETE | 4 AIR BARRIER |
| 2 STEEL REINFORCEMENT | 5 VAPOR BARRIER |
| 3 INSULATION | 6 FURRING STRIPS |

EXCEPTIONAL SOUND-PROOFING

Your occupants will notice and appreciate the additional sound control and privacy that an Element ICF building provides.

Element XRV™ Delivers More R-Value And Additional Energy Savings.

Complete The Efficient ICF Envelope By Framing All Openings With Element Pro Buck™

LOGIX BRANDS IS THE ICF SOLUTIONS COMPANY

Logix Brands provides full-service support and turn-key expertise to designers, GC's and installers to shorten the learning curve and maximize project success.

- Design Assistance
- Crew-Specific Training & On-site QC
- ICF Advisory Services
